

FORTSMOUTH INQUIRER.

Geo. W. Nelson, Editor and Proprietor.

FRIDAY EVENING, JULY 13th, 1855.

Democratic State Ticket.

FOR GOVERNOR.

WILLIAM MEDILL,
Of Fairfield.

FOR LIEUTENANT GOVERNOR,
JAMES MYERS,
Of Lucas.

FOR JUDGES SUPREME COURT,
WILLIAM KENNON, of Belmont,
R. B. WARREN, of Franklin.

FOR AUDITOR OF STATE,
WM. D. MORGAN, of Columbiana.

FOR TREASURER OF STATE,
JOHN G. BRESLIN, of Seneca.

FOR SECRETARY OF STATE,
WILLIAM TREVITT, of Franklin.

FOR ATTORNEY GENERAL,
G. W. MCCOOK, of Jefferson.

FOR MEMBER BOARD PUBLIC WORKS,
JAMES B. STEEDMAN, of Lucas.

We are requested to state that Arch-Bishop Purcell will dedicate the new Catholic Church, on sixth street, on next Sunday morning, at 10 o'clock.

TO THE PUBLIC.

It is now about a year since we first became connected with the "Inquirer," during which time there has been comparatively nothing paid on subscription, notwithstanding we have repeatedly urged those who take the paper to come forward and pay up. Therefore, and in consideration of the fact that we are about completing arrangements to start a new paper, we deem it advisable to cease publishing the Inquirer—this being probably a better time than a few weeks later in the season—and have a general settling up of the books. There are persons owing for two, three, four and five years subscription. We think it is time they should settle some way or other. This is what we wish and what we intend to have.

The name of the Inquirer will be changed to that of the Ohio Pennant, and the business of the office will be conducted hereafter upon the cash principle exclusively. No subscription will be received unless paid for in advance. This is the only rule printers can adopt to save themselves. The paper will make its appearance in two or three weeks.

We hope those knowing themselves indebted to us will hold themselves in readiness to pay up when we call on them, which will be in a few days.

LEAVING THE SINKING SHIP.

Since the bargain and sale, cooked up last Saturday, we have heard a number of persons who have acted with the Know Nothings come boldly out and denounce the order in unmeasured terms, and declare it their intention to vote and act with the Democracy hereafter. Among the number are those who have taken considerable interest in the affairs of that organization, and whose influence was felt and acknowledged. They do not relish the idea of being sold for a pitiful consideration to men they have, in all time past, regarded as their most bitter political enemies—men who never entertained one sentiment in common with them—nor do they intend to tamely submit to the demands of the contract. They contend that they are Americans, in deed and in fact,—that they connected themselves to the order through conscientious and honorable motives, not for the purpose of helping designing and ambitious political hucksters to place and power, and that they will not submit to the tyrannical dictates of those who have assumed the control and direct the movements of the order. They are men of principle, and act from principle. They did not join the order to be sold to federal Whiggery or modern Abolitionism, and rather than acquiesce in the late disgraceful bargain and sale, they choose to cut themselves loose from all connection with the order, and join their fortunes to those of the Democracy—satisfied that it is now the only party of integrity, or the only one willing to stand up to its professions.

We understand that twenty-four members withdrew from the council in this city, last night, and that as many more will leave the concern at the next meeting. So we go.

WHEAT AND CORN IN GEORGIA.—The wheat harvest in Georgia is over, and the yield is said to be abundant. In the interior of the State new flour opened at \$6 per cwt. for first quality, and a further decline is expected. An unusually heavy crop has been planted throughout the State, and the indications, it is said, are that the yield will be larger than for years.

According to a statement of semi-official character, one hundred and eighty thousand French troops have been sent out to the Crimea and Turkey since the commencement of the war. Of these, one hundred and twenty thousand are now available; the remaining number represents, besides the casualties and deaths by ordinary mortality, the sick and wounded now in hospital.

ANTI-KNOW NOTHING CONVENTION—"BARGAIN AND SALE"—HINDOOS SOLD OUT—THE DEED, &c., &c.

We had intended to note down the proceedings of the meeting held last Saturday; but, owing to the "noise and confusion" which prevailed, we found it utterly impossible to do so. The affair was rich beyond conception, and no account we can render can do justice to it, or satisfy the minds of those who were not present.

The meeting was called by anti-Know Nothing Republicans, or Fusionists, who were opposed to the action of the Hindoo Convention which met at the City Hall, a few days previous, and the object was the selection of delegates to the 13th of July State Convention. The call was very explicit,—clearly and designedly excluding all who were not anti-Nebraska in sentiment, and opposed to the action of the former meeting—yet Know Nothings,—men who took the most active part in that affair—were there, and claimed to have a right to participate in the actions of this. This, of course, gave rise to much confusion. Speech after speech followed in quick succession, and the debate soon waxed into sharp personalities. This was kept up some two hours, with short intermissions, when, all at once, gentlemen on the Hindoo side of the house, became very humble and proposed a compromise.—After a few minutes consultation the proposition was accepted. The parties retired to a private room—drew up the papers, signed them, and the meeting adjourned.

Through the politeness of one of the parties we are enabled to lay before the public, a true copy of the Deed. It reads as follows:

This indenture, made this seventh day of July, in the year of our Lord one thousand eight hundred and fifty-five, between NEWT, DAN & MILT, Guardians and principal Fuglers of the Know Nothing party, of the city of Portsmouth, county of Scioto, and State of Ohio, parties of the first part, and George & John, representatives of the old Whig party, and the bitter opponents of the said Know Nothing organization, of the city, county and State aforesaid, parties of the second part; witnesseth, that the said parties of the first part, for and in consideration of two delegates to the Fusion State Convention to be held in Columbus on the 13th of July inst., to them in hand paid by the parties of the second part, on or before the sealing or delivery of these presents, the receipt whereof is hereby acknowledged, has remised, released, and quit-claimed and by these presents does remise, release, and quit-claim unto the said parties of the second part, and to their legal political heirs and assigns forever, all of the following described offices and property to wit: One County Auditor, one Sheriff, one Common Pleas Clerkship, one Probate Judgeship, and one County Commissioner; one Mayor, one Marshal, one City Solicitor, one City Clerk, one Wharf-master, five Councilmen, four Assessors, divers Watchmen, and innumerable understrappers; also all the principles, practices and precepts of the Know Nothing party—the formulas, rules and pass-words of the several councils in said county of Scioto—all claims to the offices of State Senator, Representative, County Treasurer, Prosecuting Attorney, &c., &c., (which are to be filled this coming fall); together with all and singular the tenements, hereditaments and appurtenances thereunto belonging, or in anywise appertaining, and the reversion and reversions, remainder and remainders, rents, issues, and profits thereof. And also, all the estate, right, title, interest, property, possession, claim, and demand whatsoever, as well in law, as in equity, of the said party of the first part, of, in, or to the above-described premises, and every part and parcel thereof, with the appurtenances. To have and to hold, all and singular the above mentioned and described premises, together with the appurtenances, unto the said parties of the second part, their heirs and assigns forever. And the said parties of the first part for themselves, their heirs, executors and administrators, do hereby covenant, promise and agree, to and with the said parties of the second part, their heirs and assigns, that they have not made, done, committed, executed, or suffered any act or acts, thing or things whatsoever, whereby, or by means whereof, the above mentioned and described property, or any part or parcel thereof, now are, or at any time hereafter shall or may be impeached, charged, or encumbered, in any manner or way whatsoever.

In witness whereof, the said parties of the first part have hereunto set their hand and seal, the day and year first above written.

NEWT, DAN & MILT, [L. S.]
Sealed and delivered in the presence of
R. S. SLOOX.

FUSION AND CONFUSION.

We commiserate our Know Nothing opponents on account of the condition they have worked themselves into. They are cut up, divided and subdivided, into factions so numerous and small that they can scarcely fix upon a platform expansive enough for even a township organization to stand upon; old line Whigs stand aloof in dismay, while abolitionists and free soilers are driving a trade with the confused Know Nothings, who see that unless they can bring to their aid all the factions and fig ends they are doomed to a most inglorious defeat. The abolitionists are shrewd enough to see the condition of things, and are anxious for a trade, provided they can absorb all the important offices, and it is pretty clear now that they are going to succeed in making the Know Nothing faction subservient to their purposes. Their glorification on last Saturday, shows which way the wind is blowing, in this section of the country.

Every day new evidences are furnished in regard to the designs of the Know Nothing party, and as fast as they are made known, they receive the positive disapproval of all the friends of the constitution, and of civil and religious freedom. Were the purposes of this party fully consummated, they would introduce at once, a war of races and religion akin to the persecutions that raged at different periods during the dark ages.

Our forefathers planted the tree of liberty in this country, that under its shade the oppressed and down trodden of all nations, all languages and all religions, might find a shelter and a home. This proscriptive order whose movements are so silent, is apparently laboring to subvert the very end and aims of our government. They seem to be conscious of this, and therefore carry on their work under the cloak of secrecy. If their designs are honorable—if their cause is one which will command the approbation of good men—if their principles are founded in reason, why the necessity of this secrecy? Why not let their doctrines be known and furnish an opportunity for open, frank, and full discussion of their merits? Surely truth will bear the light. Error only needs a cloak to hide its deformity.

It has ever been the boast of the Democratic party, that all its principles and movements were open to the investigation and criticism of the public; and the Democratic presses through the country with perfect unanimity have condemned the creed and course of the Know Nothings. At first, a majority of the Fusion presses favored the proceedings of this order, doubtless for the purpose of securing the victory this fall. The partnership is proving rather disastrous to the parties concerned, for numbers are withdrawing from the concern in disgust, and are joining the ranks of the Democracy.

We believe that many who belonged to this order, are upright and honorable citizens, and that they were led into the scheme through an honest but misdirected motive. We have proof of this, in the fact that so many who first espoused the cause, now come out and denounce it. We also, have full confidence in the intelligence and patriotism of the American people, and we believe that though error and intolerance may reign for a while in the land, yet in the end, civil and religious liberty will triumph.

ANOTHER "MARE'S NEST."

The Tribune has become very much exercised about the condition of the Canal, and makes all sorts of charges. Just hear how the poor fellow raves:

"The Canal at this place is in a deplorable condition at present. We understand that although there is an abundance of water, it is impossible to get boats in or out of the lock, because mud and sand have been suffered to accumulate therein, to within fifteen inches of the top. It is also said that Mr. Alexander, the Agent in charge of the lower section, instead of employing the hands and implements of the State in repairing this portion of the canal, is busily engaged with the State boat, hands, horses, &c., in freighting goods between this point and Waverly."

To a casual observer the above charge might appear to have been made by a man having some regard for truth; but a careful reader will readily discover that such is not the fact, for the charge itself bears unmistakable evidence of falsehood upon its face. The editor says "there is an abundance of water" in the Canal to permit boats to go in and out, yet they can not do it, "because mud and sand have been suffered to accumulate therein, to within fifteen inches of the top!"

Again, he says Mr. Alexander "is busily engaged in freighting goods between this point and Waverly," notwithstanding the "mud and sand has accumulated" in this end of the canal to such an extent, that "it is impossible to get boats in or out!" That kind of logic won't do, Mac. It is too barefaced to go down easy.

The whole secret of the matter is just this. The duties of Mr. ALEXANDER's office requires him to go over the canal once a week, in doing which, he has, upon one or two occasions, carried a few pounds of freight, mostly his own; at which one or two Captains of mud scows, have taken offence—believing they have an exclusive right to all the freight going up and down the ditch—and laid in their complaints to the editor of the Tribune, who pitched into Alexander, the Canal and the mud, without knowing what he was doing. He should be a little more careful hereafter, and not make such wholesale charges, simply to gratify a few irresponsible boatmen.

Some of the Know Nothings have discovered a remarkable correspondence between the polity of the Methodist Church and that of the Romish Church, and are overhauling the property of the former with the same severity as they have assailed that of the latter.

The last two steamers which brought the semi-monthly treasure from California had on freight \$1,678,000 in specie, and, as they bring a large number of passengers having specie with them, the total will be full, if not over \$2,000,000, an amount which is fully up to expectation.

Col. Thomas W. Thomas, of Elberton, Ga., comes out over his signature and states: "I am told that it is susceptible of proof in a court of justice, that the father of one of the head Know Nothings in Georgia was an Irishman, and was sold to pay his passage."

LATER FROM CALIFORNIA! Trouble with the Indians—Defeat of the K. N.'s in Oregon—Lane elected Delegate.

New York, July 9.

The steamer Northern Light reached her berth at 8 o'clock yesterday evening. California dates to the 18th inst.—437 passengers.—She brought out \$29,000 in gold. Among her passengers is Mr. Wheeler, Minister to Nicaragua, who brings important treaties. Walker landed at Prieto on the 25th June, with 375 men. He is reported to have taken Rivas, and then entering San Juan del Sud, carried off the arms and ammunition there collected, without opposition.

The steamer Golden Gate left San Francisco on the 16th with \$1,633,000 freight. The most important item is the confirmation of claims of Messrs. Bolton & Barron, by the United States Land Commissioners, embracing 13,550 acres, lying mostly within the corporate limits of San Francisco, estimated to be worth \$4,000,000. Palmer, Cook & Co. are the principal owners of the claim.

Trouble with the Indians anticipated in the neighborhood of Fresno River, owing to an Indian having been hung for shooting a Mexican miner without provocation. Rich gold quartz and a lead of a silver mine has been discovered in Monumme.

The settlers are holding frequent meetings to concert measures to redress grievances. A settlers' party was to be organized throughout the State.

Know Nothings defeated in Oregon.—Lane, Democrat, elected delegate to Congress. 200 majority in favor of forming a State government. Returns are incomplete, but enough are received to indicate that it had been determined that Oregon should cease to be a territory.

The Indians are reported to have killed six white men on Klamath Reservation, and six others in Illinois Valley.

The mines are yielding abundantly.—1855 bids fair to equal, if it does not exceed, the production of any previous year. The California mint is coining at the rate of \$100,000 per day.

The New York correspondent of the Baltimore Sun says:

"The Census Marshals met last night at the Broadway House and reported progress. It is thought that the rate of increase has been such since 1850, the population of the city now numbers about eight hundred and twenty-five thousand. It is said that on the average there are to be found two families in a house, and about five persons in a family."

The Crows.—Our letters from the west speak of the favorable appearance presented by the crops. In most of the western states the quantity of wheat sown, and of maize and potatoes planted, is beyond all proportion larger than usual. The same thing has been done by the farmers in the neighborhood of this city. A correspondent writing from Illinois, says: "If the harvest answers to the present promise we shall pour into your lap an abundance which will put an end to all complaints of the high price of provisions."

During the ceremonies of a Mormon baptism, at Newport, Ky., on Sunday last, two converts to the faith and belief of that church, were drowned in the river. Though lost to this world by this last act, it may be the means of saving them in the next, as time was not given them to practice in the fundamental doctrine, and common crime of the deluded followers of JOSE SMITH.

APOSTATES.—The San Francisco Citizen applies the above title to certain Know Nothings who not being successful in obtaining nominations, went over to the enemy. They are accused of violating their oaths, and all sorts of improprieties. What a fine set of fellows these Know Nothings are! The leaders of the Order in Ohio are doing precisely the same thing here. They want an office, and will sell themselves to any party that will promise them preferment.

State elections will take place on the first Monday of August in Alabama, Arkansas, Iowa, Kentucky, Missouri and Texas; in Tennessee on the first Thursday of the same month, and in North Carolina on the second Thursday thereof; in Maine on the second Monday of September, and in Vermont on the first Tuesday of the same month.

There is said to be in Illinois at least twenty per cent more account in wheat at the present time than in any previous year. The winter has been exceedingly favorable.

The Catholic Priests have been censured by the Know Nothings for assuming to be able to absolve their followers, from guilt in not keeping faith with heretics. What better have they proven themselves to be, in the recent absolution of their members from the sin of ignoring, contrary to their oaths, the secrecy which they swore to maintain, particularly in making known their membership? How inconsistent!

The California Starch Company will soon be able to manufacture sufficient starch to supply the Pacific coast and some considerable portion of the eastern. It is thought that California offers peculiar facilities for the cheap manufacture of this article.

Col. Thomas W. Thomas, of Elberton, Ga., comes out over his signature and states: "I am told that it is susceptible of proof in a court of justice, that the father of one of the head Know Nothings in Georgia was an Irishman, and was sold to pay his passage."

N. B.—Always for sale, a general assortment of Books and Stationery

HELMHOLD'S GENUINE PREPARATION. HELMHOLD'S HIGHLY CONCENTRATED COMPOUND FLUID EXTRACT BUCHU.

For diseases of the Bladder and Kidneys, Secret Diseases, Strictures, Weaknesses, and all diseases of the Sexual Organs, whether in Male or Female, from whatever cause they may have originated, and no matter of how long standing.

If you have contracted the terrible disease which, when once seated in the system, will surely go down from one generation to another, undermining the constitution and sapping the very vital fluids of life, do not trust yourself in the hands of Quacks, who start up every day in a city like this, and fill the papers with glaring falsehoods, too well calculated to deceive the young, and those not acquainted with their tricks. You cannot be too careful in the selection of a remedy in these cases.

The Fluid Extract Buchu has been pronounced by eminent physicians the greatest remedy ever known. It is a medicine perfectly pure, not in its taste, and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and poisonous virus of this dreadful disease; and, unlike other remedies, does not dry up the disease in the blood.

Constitutional Debility, brought on by self-abuse, a most terrible disease, which has not thousands of the human race, to timely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this infallible Remedy. And as a medicine which must benefit everybody, from the simply delicate to the confirmed and despairing invalid, no equal is to be found acting both as a Cure and preventive.

HELMHOLD'S HIGHLY CONCENTRATED Compound Fluid Extract of SASSAPARILLA.

For Purifying the Blood, removing all diseases arising from excess of Mercury, exposure and imprudence in life, chronic constitutional diseases, arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrophulous, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetters, Pimples on the Face and all Scaly Eruptions of the Skin.

This article is now prescribed by some of the most distinguished physicians in the country, and has proved more efficient in practice than any preparation of Sarsaparilla offered to the public. Several cases of secondary Syphilis, Mercurial and Scrophulous diseases, have entirely recovered in the incurable wards of our Public Institutions which had for many years resisted every mode of treatment that could be devised. These cases furnish striking examples of the salutary effects of this medicine in attacking some of the most inveterate diseases, after the glands were destroyed, and the bones already affected.

Notice.—Letters from responsible Physicians and Professors of several Medical Colleges, and certificates of cures from patients who have found accounts of Sarsaparilla, and of the Fluid Extract of Buchu, \$1 per bottle, or 6 bottles for \$5.

Fluid extract of Sarsaparilla, " " " " or 6 bottles for \$5, equal in strength to one gallon of Syrop of Sarsaparilla.

Prepared and sold by H. T. HELMHOLD, Chemist, 213 Chestnut Street near the Grand Hotel Philadelphia.

All letters directed to the Proprietor or Agent receive immediate attention.
